

Yexa Reseller and Yexa Registrar provide turnkey, friendly and affordable software to build and manage your domain and hosting business.

**Simple Interface** - Save time with an easy to learn administration.

**Quick & Easy Setup** - Create your registrar or reseller business in minutes with a flexible and dynamic Web App.

**Turnkey Solution** - Operate your entire domain and hosting business via one platform.

**Custom Storefront** - Customize your website's design or choose a ready made theme.

**Domain Registrations** - Manage your own registrar or become an instant reseller.

## Yexa for Resellers

Sell domain names, hosting, SSL certificates and more via your own website using Yexa Reseller software.

### Fast ROI

Setup and customization is fast and training is not required.

### Automation

Yexa Reseller provides automated invoice generation and payment processing.

### Premium Providers

Promote quality and trust by selling reputable brands on your website.

### Customer Support

Support your customers with our integrated support ticketing and knowledge base.

### Scalable Platform

Designed for business of any size.

## Yexa for Registrars

Buy, sell and manage domain names via your ICANN accredited registrar using Yexa Registrar software.

### Integration Choices

Operate your registrar from a web-based administration or our comprehensive API.

### Reseller Network

Grow your registrar by recruiting and managing your own domain resellers.

### Domain Professionals

Take control of your own domain portfolio registrations.
